

THE COMPANY

Acknowledged specialists in the supply of light commercial vehicle range which includes vans and chassis cabs up to 3850KGs, award winning minibuses and van derived special vehicles and luxury as well as utility 4x4 products from the UK and Japan. The reputation of 'Team Leyland International' for **Total Transport Solutions** spans the world.

Through our dedicated overseas distribution chain, Government agencies Embassies and High Commissions, international oil and mining companies, overseas contractors, aid agencies, tax free sales, together with a growing portfolio of personal customers are all putting their trust in our experience and total commitment to customer satisfaction.

As major suppliers to project co-ordinators and buyers, our fully equipped specialist body shops & workshops convert, modify and up-rate standard vehicles to meet your exacting needs and requirements. The customisation of vehicles for use in many variants such as ambulances, mobile workshops, servicing units or lighting platforms can be undertaken to your precise specifications.

TOTAL SUPPORT

As part of an established European network, Team Leyland International offers you the confidence and backing of total service support. Comprehensive spare parts facilities make it possible for us to support your existing vehicles, provide spare parts kits with new deliveries and support vehicles throughout their working lives.

Our own in-house shipping and logistics department can help you to ship the vehicles and parts anywhere in the world

All passenger carrying vehicles are supplied to UK standards (unless specified other wise)
