

TEAM LEYLAND DEFENCE

Acknowledged specialists in the supply of "soft skin" vehicles, including van derived special vehicles and modified 4x4 vehicles. 'Team Leyland International' has supplied the United Kingdom Ministry of Defence with standard and specialist vehicles for use overseas, including NATO deployments. This is in addition to direct supply of logistic support vehicles and spare parts to an increasing number of overseas Defence forces.

We understand the requirements for military support vehicles in the modern world of defence logistics. The necessity to have the correct specification of vehicle in the right place at the right time, whether your mission is military, peacekeeping or humanitarian relief. You can put your trust in our experience and total commitment to customer satisfaction. We are happy to supply low volume orders, as well as larger fleets

As a major supplier we have available capacity with our fully approved specialist UK sub-contract body shops & workshops, to convert, modify and up-rate standard vehicles to meet your exacting needs and requirements.
